PROFESSIONAL SUMMARY
DevOps & Cloud Infrastructure Engineer with 6+ years of expertise in Kubernetes container orchestration, AWS cloud architecture, Infrastructure as Code (Terraform), and robust CI/CD automation pipelines.

WORK EXPERIENCE
Senior Cloud & DevOps Engineer | Apex Cloud Systems | Feb 2021 - Present
- Architected enterprise multi-region AWS cloud infrastructure utilizing Terraform, achieving 99.99% system availability.
- Orchestrated container deployments across 8 Kubernetes (EKS) production clusters managing over 400 microservices.
- Built automated CI/CD deployment pipelines using GitHub Actions and Jenkins, cutting production release failures by 65%.
- Implemented centralized monitoring and alerting infrastructure with Prometheus, Grafana, and ELK stack.

Site Reliability Engineer | Stratos Networks | Jun 2018 - Jan 2021
- Automated cloud provisioning and configuration management using Ansible and Python scripting.
- Hardened Linux servers and implemented network security compliance policies (OWASP, IAM, SSL/TLS).
- Optimized Docker container images, shrinking build footprints by 42% and speeding up deployment pipelines.

EDUCATION
Bachelor of Science in Information Technology | University of Washington | 2018

CERTIFICATIONS
- AWS Certified Solutions Architect Associate
- Certified Kubernetes Administrator (CKA)

TECHNICAL SKILLS
- Cloud & Infrastructure: AWS, Docker, Kubernetes, Terraform, Linux, Ansible, CI/CD, Nginx
- Monitoring & Scripting: Prometheus, Grafana, Bash, Python, Git
- Security & Concepts: System Design, Cybersecurity, Network Security, Microservices, Agile / Scrum
